About Freedom Seeds

The seeds offered by Freedom Seeds have been carefully selected to be open-pollinated varieties only and, where possible, organic. We do not knowingly sell GMO varieties. The seeds are obtained from high-quality suppliers. Because Freedom Seeds is a new venture, we are still developing resources for planting guidelines. Recommendations regarding how and when to plant the seed varieties offered may be researched online or in reference books.

Freedom Seeds guarantees that all items we offer are fully satisfactory. If you are dissatisfied because of any product defect, we will either replace the item or refund the purchase price. Seed packets may be returned only for these reasons, and are only eligible for an exchange or refund up to the purchase price of the item. We are not responsible for return shipping costs.

Limitation of Liability

Because good results depend upon weather, soil and cultural practices over which we have no control, we limit our liability in all instances to the purchase price of the seeds. The liability of Freedom Seeds for breach of warranty, or any loss or damages arising out of the purchase or use of our products, including loss or damages resulting from any negligence whatsoever on our part, or strict liability in tort, shall be limited to the purchase price. By acceptance of the merchandise, the buyer acknowledges that the limitations and disclaimers herein described are conditions of sale, and that they constitute the entire agreement between the parties regarding any warranty or liability.

Claims for errors in your order must be presented within 30 days of receipt of your order. Claims for defects in Freedom Seeds' products should be presented to Freedom Seeds as soon as possible after discovery. Failure to assert claims within 30 days after discovery renders this warranty null and void.

Please check the requirements of the variety before ordering. Some of these seeds are new to us, and so we are also experimenting. It is understood that you will have found the seeds ordered to be suitable for your conditions and acceptable for your needs. We need your feedback, pro and con, in order for us to improve.
